

# PATENTED INNOVATION

## MULTIBECK AERIAL FEEDING

### TWO PAN FEEDERS IN ONE

SPECIFIC FOR EACH AGE AND EACH SPECIE

▶ No chicks inside the pans

▶ More hygiene, less work,  
less bruising

▶ Successful versatility

Lower pan: starting period of all  
poultry and broilers finishing

Upper pan: for transition and finishing  
of turkeys and ducks

No need to change pan feeder  
during the entire growing period  
or a change of production

LEAD LE ROY CONCEPT

# MULTIBECK AERIAL FEEDING

**TWO PAN FEEDERS IN ONE  
TO OPTIMIZE PERFORMANCES**

**More hygiene, less work,  
less bruising**

- ▶ **Multibeck avoids droppings on feed**  
It prevents chicks from entering the plate and contaminate the food
- ▶ **Multibeck allows 20 chicks to have access to the feed at the same time**, twice more than with a classic pan feeder
- ▶ **Less time lost at the starting period** to fill the pan feeders because Multibeck facilitates access to food

- ▶ **Collar for turkeys or ducks and grid for guinea fowls can be installed without removing the pan feeder**
- ▶ **Improves food's hygiene and reduces the workload**

## Successful versatility

- ▶ **Lower pan** specific for starting of all poultry and finishing broilers
- ▶ **Upper pan** specific for turkey or duck's transition and finishing
- ▶ **For better feed conversion**, upper and lower pan are designed to prevent wastage
- ▶ **No need to change the pan** during the growing period or a change of production

## Technical features

**Very high resistant plastic for an intensive and repetitive use.**

- **Lower pan:** Diam 32 cm, depth 4,2 cm
- **Upper pan:** Diam 29 cm, depth 9,5 cm
- **With collar:** Diam 40 cm, depth 14,5 cm
